Education

University of British Columbia Vancouver, BC, Canada

Bachelor of Applied Science (BASc) in Integrated Engineering, Minor in Commerce, Co-op *April 2028*

- **Focus:** Computer & Mechanical Engineering; AI/ML, Industrial & Engineering Management
- **Scholarships:** International Major Entrance Scholarship (IMES & OIS), merit-based, $100,000
- **Relevant Coursework:** AI/ML in Manufacturing, Industrial Engineering, Digital Systems (MCUs), Linear Circuits, Thermodynamics, Controls Theory, Software Design, Engineering Economics, Financial Accounting

Work Experience

Cyber Strategy & Transformation Co-op June 2026 – August 2026

Deloitte *Bangkok, Thailand*

- Strengthened enterprise cyber governance by assessing and updating policies, standards, and controls against ISO 27001, NIST CSF 2.0, NIST SP 800-53, PCI DSS v4.0.1, MAS guidance, PDPA, and GDPR requirements.
- Supported cyber risk strategy and policy implementation by translating identified control gaps into practical recommendations, executive-ready deliverables, and materials for stakeholder walkthroughs and socialization.
- Developed an AI proof of concept for cybersecurity due diligence in M&A transactions using Claude on Amazon Bedrock to assess cyber evidence, identify gaps, and translate findings into deal risks and integration actions.

Cybersecurity Project Management Co-op May 2025 – August 2025

TCC Technology *Bangkok, Thailand*

- Represented the client-side technology / project management team in comprehensive cyber risk assessments, including cybersecurity maturity and penetration testing engagements, in close collaboration with PwC Thailand
- Reviewed findings against NIST and PDPA requirements, identifying gaps and recommending improvements
- Supported network, VPN, and ELK tasks, contributing to overall project coordination and successful delivery

Summer Engineering Intern May 2024 – August 2024

JLL (Jones Lang LaSalle) *Bangkok, Thailand*

- Contributed to the integration of Digital Twinning solutions for Preventive Maintenance (PPM) with the Mechanical, Electrical, and Plumbing (MEP) team, optimizing maintenance processes within the Mozart platform
- Assisted in drafting Standard Operating Procedures (SOPs) and Emergency Response Plans (ERPs) to address cyber breaches, MEP failures, and security threats, utilizing Swimlane diagrams for streamlined implementation

Leadership & Organizational Experience (Selected)

Chair of the Advisory Board April 2024 – Present

UBC Association of Southeast Asian Clubs (ASEAC) & UBC Thai Aiyara *Vancouver, BC*

- Previously served as Co-President, Vice President, and Director of External Affairs, leading organizational strategy, executive transitions, external relations, and cross-club collaboration across both organizations
- Co-led 7 Southeast Asian student clubs representing 700+ members and delivered events including "Taste of SEA" for 200+ attendees, overseeing budgeting / finances, sponsorships, consulate relations, logistics, and club strategy

Director, Sponsorship & Finance September 2023 – January 2026

UBC Thunderbots *Vancouver, BC*

- Managed sponsorship acquisition and overall budgeting for UBC's robotics team (RoboCup SSL Division)
- Coordinated between mechanical, electrical, and software teams to successfully meet project and financial goals

Projects (Selected)

AI-Tracking Blimp | *Project Management, Embedded Systems, Machining, Python* 2025

- Led a team of 6 to develop a blimp for human detection in convention centers, improving tracking for data analysis
- Prototyped a lightweight blimp with helium and optimized casing, integrating ESP 32 and controls systems for precise navigation, flight control, and YOLOv12 for real-time human detection using computer vision

Skills

Business & Analytics: Excel, PowerPoint, Microsoft Office, Power BI, Financial Modelling, Codex, Claude, SQL, R
Programming & Engineering: Python, C/C++, C#, MATLAB, TensorFlow, SOLIDWORKS, 8051 Assembly
