Education

University of British Columbia — Vancouver, BC, Canada
Bachelor of Applied Science (BASc) in Integrated Engineering, Minor in Commerce — *Expected April 2028*

- **Focus:** Computer & Mechanical Engineering
- **Scholarship:** International Major Entrance Scholarship (IMES), merit-based, $80,000
- **Coursework:** AI/ML in Manufacturing, Industrial Engineering, Digital Systems (MCUs), Linear Circuits, Thermodynamics, Controls Theory, Software Design, Applied Electronics & Electromechanics, Unit Operations
- **Co-op/Internship Availability:** Up to 12 months starting Fall 2026

Technical Skills

Software & Tools: Excel, Jupyter, Git, VS Code, TensorFlow, MATLAB, Arduino IDE, SQL, R, SOLIDWORKS
Programming & Systems: Python, C, C++, C#, Embedded Systems (8051 Assembly, VHDL, SystemVerilog)

Work Experience (Selected)

Cyber Strategy & Transformation Co-op — June 2026 – August 2026
Deloitte — *Bangkok, Thailand*

Cybersecurity Analyst/Project Management Co-op — May 2025 – August 2025
TCC Technology — *Bangkok, Thailand*

- Represented the client-side technology / project management team in comprehensive cyber risk assessments, including cybersecurity maturity and penetration testing engagements, in close collaboration with PwC Thailand
- Reviewed findings against NIST and PDPA requirements, identifying gaps and recommending improvements
- Supported network, VPN, and ELK tasks, contributing to overall project coordination and successful delivery

Summer Engineering Intern — May 2024 – August 2024
JLL (Jones Lang LaSalle) — *Bangkok, Thailand*

- Contributed to the integration of Digital Twinning solutions for Preventive Maintenance (PPM) with the Mechanical, Electrical, and Plumbing (MEP) team, optimizing maintenance processes within the Mozart platform
- Assisted in drafting Standard Operating Procedures (SOPs) and Emergency Response Plans (ERPs) to address cyber breaches, MEP failures, and security threats, utilizing Swimlane diagrams for streamlined implementation

Projects (Selected)

Hydroponic Garden System | *Project Coordination, Systems Integration, Controls* — September 2025 – Present

- Coordinated capstone activities across engineering subteams, aligning requirements, timelines and deliverables
- Managed stakeholder communication and technical integration with external industry sponsors (Tardigrade Ltd.)

AI-Tracking Blimp | *Project Management, Embedded Systems, Machining, Python* — November 2024 – April 2025

- Led a team of 6 to develop a blimp for human detection in convention centers, improving tracking for data analysis
- Prototyped a lightweight blimp with helium and optimized casing, integrating ESP 32 and controls systems for precise navigation, flight control, and YOLOv12 for real-time human detection using computer model

Leadership & Organizational Experience (Selected)

Sponsorship and Budget Coordinator — September 2023 – Present
UBC Thunderbots — *Vancouver, BC*

- Managed sponsorship acquisition and overall budgeting for UBC's robotics team (RoboCup SSL Division)
- Coordinated between mechanical, electrical, and software teams to successfully meet project and financial goals

Co-President — April 2024 – Present
UBC Association of Southeast Asian Clubs (UBC ASEAC) — *Vancouver, BC*

- Co-led 7 Southeast Asian clubs at UBC with 700+ members, overseeing operations, member engagement, and managing sponsorship, consulate relations, and partnerships to promote Southeast Asian cultural awareness
- Led events like "Taste of SEA" with 200+ attendees, managing a $5,000 cash flow, ensuring successful execution
